

# Araza launches Graduate Program and First Graduate Intake

- Program to find the best of the best graduates from the major Australian universities
- Program includes training and top client experience

## PRESS RELEASE

18 January 2014

Araza has announced the launch of its Graduate Program starting with this FY half. The program aims to find best of the best graduate from the major Australian university pools and train the intakes with best practice knowledge. The graduates are guaranteed to be placed in some of Australia's top clients including large telco and financial institutions.

Victoria Kluth, CEO says "The demand for quality graduates is very high and our program is a perfect vehicle to add new team members onto our existing client projects. Araza is in a unique position to support graduates on their journey through their technology careers."

The Araza offering has been implemented with several ASX25 clients.

The first intake starts on Monday, 20 January 2014. The six graduates entering the program will go through a series of training days prior to client starts.
